

PROJECT DESIGN PHASE 1

SOLUTION ARCHITECTURE

DATE	02 Nov 2023
TEAM ID	6CA770FDBD1BFD488A34FCBDBFC19CE7
TITLE	Creation of application for an school management

SOLUTION ARCHITECTURE:

Designing a solution architecture for a school management application involves considering various components, technologies, and features to ensure efficient and effective management of school operations. Here is a high-level overview of the architecture.

Begin by thoroughly understanding the functional requirements of the school management application. This includes features like student registration, attendance tracking, grade management, communication tools, and administrative functions.
