

PROJECT DESIGN PHASE 1

PROPOSED SOLUTION

DATE	02 Nov 2023
TEAM ID	6CA770FDBD1BFD488A34FCBDBFC19CE7
PROJECT NAME	Creation of an application for school management

PROPOSED SOLUTION:

This system is designed to automate a range of processes such as student enrolment, course scheduling, fee management, library management, attendance tracking, and more. The goal of a school management system is to simplify these processes and make them more efficient, saving time and reducing errors.

School management software is an essential tool for educational institutions. It helps to streamline administrative tasks, improve communication, and enhance overall efficiency. By using school management software, schools can improve student outcomes and provide a better education for their students.
